

1. Record Nr.	UNINA9910464435703321
Titolo	Atlas of dermoscopy // edited by Ashfaq A. Marghoob, MD, Memorial Sloan-Kettering Cancer Center's regional skin cancer clinic, Hauppauge, New York, USA, Memorial Sloan-Kettering Cancer Center, New York City, New York, USA, Josep Malvehy, MD, Mel
Pubbl/distr/stampa	Boca Raton : , : CRC Press, , [2012] ©2012
ISBN	1-84184-762-3
Edizione	[Second edition.]
Descrizione fisica	1 online resource (396 p.)
Disciplina	616.99477075
Soggetti	Skin - Cancer - Diagnosis Skin - Diseases - Diagnosis Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Front Cover; Chapter 1 Introduction; Chapter 2 Principles of dermoscopy and dermoscopic equipment; Chapter 3 Histopathologic tissue correlations of dermoscopic structures; Chapter 4 Two-step algorithm: Differentiating melanocytic from nonmelanocytic lesions; Chapter 5a Basal cell carcinoma; Chapter 5b Actinic keratosis, Bowen's disease, keratoacanthoma, and squamous cell carcinoma; Chapter 5c Solar lentigines, seborrheic keratoses, and lichen planus-like keratosis; Chapter 5d Vascular lesions; Chapter 5e Dermatofibromas Chapter 6a Analytic features of melanoma vs benign nevi on nonglabrous skin: Colors and structuresChapter 6b Pattern analysis; Chapter 6c ABCD rule; Chapter 6d Menzies method; Chapter 6e Seven-point checklist and the seven rules not to miss melanoma incognito; Chapter 6f CASH algorithm; Chapter 6g Three-point checklist; Chapter 6h Revised version of pattern analysis; Chapter 7a Congenital melanocytic nevi; Chapter 7b Dysplastic (atypical) nevi; Chapter 7c Banal nevi and growing nevi; Chapter 7d Blue nevi and variants; Chapter 7e Spitz and Reed nevi; Chapter 7f Recurrent (persistent) nevi Chapter 8a Superficial spreading melanomaChapter 8b Acrolentiginous

melanoma; Chapter 8c Nodular melanoma; Chapter 8d Lentigo maligna melanoma; Chapter 8e Amelanotic and hypomelanotic melanoma; Chapter 8f Equivocal lesions, false positive, and false negative; Chapter 8g Desmoplastic melanoma and metastatic melanoma; Chapter 9a Palms and soles; Chapter 9b Nails; Chapter 9c Face; Chapter 9d Hair and scalp (trichoscopy); Chapter 9e Mucosal lesions; Chapter 10 Exceptions to the two-step dermoscopy algorithm; Chapter 11 Dermoscopy in general dermatology; Chapter 12 Vascular structures Chapter 13 Diagnostic accuracy of dermoscopy Chapter 14 Followup of melanocytic skin lesions with digital dermoscopy; Chapter 15 Teledermoscopy and computer-assisted diagnosis; Chapter 16 Beyond dermoscopy; Chapter 17 Concluding remarks; Index; Back Cover

Sommario/riassunto

Building on a successful first edition, this revised and extended Atlas of Dermoscopy demonstrates the state of the art of how to use dermoscopy to detect and diagnose lesions of the skin, with a special emphasis on malignant skin tumours. With well over 1,500 photographs, drawings, and tables, the book has extensive clinical correlation with dermoscopic images, so readers can appreciate the added benefits of dermoscopy by comparing the clinical morphology seen with the naked eye with the corresponding dermoscopic morphology; extensive illustrations from the image collections of international
