

1. Record Nr.	UNINA9910464437103321
Titolo	Interim report of the Committee on Geographic Variation in Health Care Spending and Promotion of High-Value Care : preliminary committee observations // Committee on Geographic Variation in Health Care Spending and Promotion of High-Value Care, Board on Health Care Services ; Joseph P. Newhouse [and five others], editors ; Institute of Medicine of the National Academies
Pubbl/distr/stampa	Washington, District of Columbia : , : National Academies Press, , [2013] ©2013
ISBN	0-309-28283-7
Descrizione fisica	1 online resource (54 p.)
Disciplina	368.42600973
Soggetti	Medicare Medicare - Finance Medical care, Cost of - United States Health care reform - United States Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Errata sheet inserted.
Nota di bibliografia	Includes bibliographical references (pages 31-34).
Nota di contenuto	Research framework and statistical modeling approach -- Geography and indexing value -- Evaluation of a geographic value index -- Contributors to geographic variation in Medicare spending -- Discussion -- Limitations.
Sommario/riassunto	"Interim Report of the Committee on Geographic Variation in Health Care Spending and Promotion of High-Value Health Care: Preliminary Committee Observations is designed to provide the committee's preliminary observations for the 113th Congress as it considers further Medicare reform. This report contains only key preliminary observations related primarily to the committee's commissioned analyses of Medicare Parts A (Hospital Insurance program), B (Supplementary Medical Insurance program) and D (outpatient prescription drug benefit), complemented by other empirical

investigations. It does not contain any observations related to the committee's commissioned analyses of the commercial insurer population, Medicare Advantage, or Medicaid, which will be presented in the committee's final report after completion of quality-control activities. This interim report excludes conclusions or recommendations related to the committee's consideration of the geographic value index or other payment reforms designed to promote high value care. Additional analyses are forthcoming, which will influence the committee's deliberations. These analyses include an exploration of how Medicare Part C (Medicare Advantage) and commercial spending, utilization, and quality vary compared with, and possibly are influenced by, Medicare Parts A and B spending, utilization, and quality. The committee also is assessing potential biases that may be inherent to Medicare and commercial claims-based measures of health status. Based on this new evidence and continued review of the literature, the committee will confirm the accuracy of the observations presented in this interim report and develop final conclusions and recommendations, which will be published in the committee's final report"--Publisher's description.
