Sommario/riassunto	"Preserving the efficacy of herbicides and of herbicide-resistance technology depends on awareness of the increasing resistance of weeds to herbicides used in agriculture and coordinated action to address the problem by individuals at the farm level and beyond. This

summit served as a venue to bring the attention of important stakeholders to the issue and as an opportunity for experts from diverse disciplines to strategize in a coordinated way to address herbicide-resistant weeds. In convening stakeholders for this event, participants took a step toward a recommendation from the 2010 National Research Council report *The Impact of Genetically Engineered Crops on Farm Sustainability in the United States* that federal and state government agencies, private-sector technology developers, universities, farmer organizations, and other relevant stakeholders collaborate to document emerging weed-resistance problems and to develop cost-effective resistance-management programs and practices that preserve effective weed control. The summit provided the opportunity for stakeholders to explore the scientific basis of the emergence of herbicide resistance and to consider different perspectives on both opportunities and barriers to overcoming the problem of herbicide-resistant weeds. *National Summit on Strategies to Manage Herbicide-Resistant Weeds* contains a brief synopsis of key points made by each speaker at the summit."--Publisher's description.

Sommario/riassunto

This is the first book to celebrate the life and writing of one of the most charismatic Southern leaders of the middle twentieth century, Don West (1906-1992). West was a poet, a pioneer advocate for civil rights, a preacher, a historian, a labor organizer, a folk-music revivalist, an essayist, and an organic farmer. He is perhaps best known as an educator, primarily as cofounder of the Highlander Folk School in Tennessee and founder of the Appalachian South Folklife Center in West Virginia. In his old age, West served as an elder statesman for his causes. No Lonesome Road allows Don West to speak for himself. It provides the most comprehensive collection of his poetry ever published, spanning five decades of his literary career. It also includes the first comprehensive and annotated collection of West's nonfiction essays, articles, letters, speeches, and stories, covering his role at the forefront of Southern and Appalachian history, and as a pioneer researcher and writer on the South's little-known legacy of radical activism. Drawing from both primary and secondary sources, including previously unknown documents, correspondence, interviews, FBI files, and newspaper clippings, the introduction by Jeff Biggers stands as the most thorough, insightful biographical sketch of Don West yet published in any form. The afterword by George Brosi is a stirring personal tribute to the contributions of West and also serves as a thoughtful reflection on the interactions between the radicals of the 1930s and the 1960s. The best possible introduction to his extraordinary life and work, this annotated selection of Don West's writings will be inspirational reading for anyone interested in Southern history, poetry, religion, or activism.
