1. Record Nr. UNINA9910464483903321

Autore	Meucci Filippo
Titolo	Single and cross-layer MIMO techniques for IMT-advanced / / Filippo Meucci
Pubbl/distr/stampa	Aalborg, Denmark : , : River Publishers, , 2011 ©2011
ISBN	87-92982-90-5
Descrizione fisica	1 online resource (230 p.)
Collana	River Publishers Series in Communications ; ; Volume 13
Disciplina	621.384
Soggetti	MIMO systems Wireless communication systems Mobile communication systems Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	""Contents""; ""Preface""; ""List of Abbreviations""; ""1 International Mobile Telecommunication a€? Advanced""; ""1.1 IMT-A Candidates""; ""1.2 IMT-A Technical Requirements and Challenges""; ""1.3 IMT-A Performance Requirements""; ""1.3.1 Cell Spectral Efficiency""; ""1.3.2 Peak Cell Efficiency""; ""1.3.3 Bandwidth""; ""1.3.4 Edge Spectral Efficiency""; ""1.3.5 Latency""; ""1.3.6 Mobility""; ""1.3.7 Handovers""; ""1.3.8 VoIP Capacity""; ""1.4 Mobile WiMAX""; ""1.5 Structure of the Monograph""; ""I Single-Layer Adaptive Techniques""; ""2 The Promises of MIMO"" ""2.1 Capacity in MIMO Channels""""2.2 From MIMO Signal Processing Gain to MIMO Protocol Gain""; ""2.3 Proposed MU MIMO-ARQ Protocol""; ""3 PHY Layer: MIMO Processing Gain""; ""3.1 Introduction""; ""3.2 Space-Time Block Codes""; ""3.3 Spatial Multiplexing""; ""3.4 MIMO Support in WiMAX""; ""3.5 Link Adaptation with Dynamic MIMO""; ""3.6 Dynamic Space-Time-Frequency Block Codes""; ""3.7 Conclusions""; ""4 MAC Layer: ARQ and DSA Analysis""; ""4.1 Introduction""; ""4.2 ARQ: CL Strategy for QoS""; ""4.3 DSA: Dynamic Service Flow Addition""; ""4.4 Conclusions""; ""II Cross-Layer MIMO"" ""5 MIMO Protocol Gain""""5.1 Introduction""; ""5.2 MU MIMO State of

the Art""; ""5.3 ARQ Strategies for Single-User MIMO""; ""5.4 MU MIMO-ARQ""; ""5.5 System Model""; ""5.6 PO a€? Packet Overhearing""; ""5.7 Results""; ""5.8 Conclusion""; ""6 MIMO Protocol Gain System Design Issues""; ""6.1 General Overview of IEEE802.16 Point-to-MultiPoint""; ""6.2 Scheduling in IEEE802.16""; ""6.3 MIMO-ARQ Protocol Stack""; ""7 Conclusions""; ""Bibliography""; ""Index""; ""About the Author""; ""RIVER PUBLISHERS SERIES IN COMMUNICATIONS""
