Sommario/riassunto

A Study on Globalizing Cities is the latest masterpiece by Zhou Zhenhua, a famous Chinese economist, who closely tracks the theoretical study of global cities and is actively engaged in the strategic research of Shanghai's development. With rich empirical data and an in-depth analysis, this book is of great theoretical and practical significance. Different from studies on global cities by renowned western scholars, this book extends its perspective to globalizing cities. It explores a unique development model for China's globalizing cities by adopting a creative angle of observation and analyt
