**Sommario/riassunto**

Discover a practical, multidisciplinary approach to the prevention and management of nosocomial infection. Hospital Epidemiology and Infection Control, Fourth Edition, continues to build upon its well-earned acclaim as the most comprehensive reference on hospital epidemiology and infection control. Over 150 leading authorities have contributed their expertise to the text, examining every type of nosocomial infection as well as issues relating to surveillance, prevention, and control of these infections in patients and in healthcare workers.

Sommario/riassunto

M.J. Maher writes for all those interested in the dynamics of racism, from professionals in counselling, group analysis and psychotherapy working in multiracial and multicultural societies to those exposed to racism who need help in dealing with the impact of their experiences. She also addresses the concept of victims becoming perpetrators if support is not given to contain the process. Herself a group analyst, the author experienced at first hand racial discrimination within the system, but rather than succumb has instead produced an enduring and proficient work that draws heavily on personal
