	Nota di contenuto	Front matter -- PREFATORY NOTE -- CONTENTS -- I. THE EARLIEST UNIVERSITIES -- II. THE MEDIAEVAL PROFESSOR -- III. THE MEDIAEVAL STUDENT -- BIBLIOGRAPHICAL NOTE -- INDEX
	Sommario/riassunto	The origin and nature of the earliest universities are the subjects of this famous and witty set of lectures by the man whom eminent scholars have called "without exaggeration... the soul of the renascence of medieval studies in the United States." Great as the differences are between the earliest universities and those of today, the fact remains, says Professor Haskins, the "the university of the twentieth century is the lineal descendant of medieval Paris and Bologna." In demonstrating this fact, he brings to life the institutions, instruction, professors, and students of the Middle Ages.

Toward a Lebanese Alphabet, Toward a New Middle East; Conclusion; Bibliography; Index; About the Author
	Sommario/riassunto	Since the West's very early flirtations with the modern Near East, and especially in the past 100 years of East-West relations, there has been considerable difficulty in understanding and defining the Middle East, the Arab world, pan-Arabism, Arab nationalism, and Middle Eastern identities in general. The Western impulse of conflating national identity with language, state, and ethnicity-often subsuming Arabic language into Arab ethnicity-has contributed to this misunderstanding and misreading of the region. For, while the Middle East can be accurately referred to by way of t
