Cholan, Yukatekan and matter borrowing in person markers 5.1 Matter borrowing in person markers; 5.2 Shared innovations and matter borrowing in Set A; 5.3 Shared innovations in Set B; 5.4 Relative chronology of changes in person marking; 5.5 Person marking and borrowability in Mayan; Chapter 6. Contact effects in the Lowland Mayan aspectual systems; 6.1 Borrowed aspectual morphology in Lowland Mayan languages; 6.2 The 'ti' completive proclitic; 6.3 The '-oom' perfect incompletive; 6.3.1 The -oom in hieroglyphs; 6.3.2 -oom in Colonial Yukatek; 6.3.3 Borrowing or shared retention?
6.4 The progressive with *iyuwal

Sommario/riassunto

This book offers a study of long-term, intensive language contact between more than a dozen Mayan languages spoken in the lowlands of Guatemala, Southern Mexico and Belize. It details the massive restructuring of syntactic and semantic organization, the calquing of grammatical patterns, and the direct borrowing of inflectional morphology, including, in some of these languages, the direct borrowing of even entire morphological paradigms. The in-depth analysis of contact among the genetically related Lowland Mayan languages presented in this volume serves as a highly relevant case for theoretical
