Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	part I. Disability and intersecting statuses -- part II. Disability and parental statuses -- part III. Quantitative analyses -- part IV. Qualitative analyses -- part V. Intersectionality in the Indian context.
Sommario/riassunto	Disability can be either an ascribed status or an achieved status and its combination with other statuses will affect the person's social experiences. This issue challenges critical thinking about the interrelationships with disability. It questions if the concepts and methods of intersectionality can be applied to disability at all.
