Sommario/riassunto

Touted as one of the main engineers of Singapore's economic growth, Dr Goh's collection of writings and speeches seek to shed light on the various challenges that China faced in the early 90's. His arguments and analyses were presented clearly and concisely while being firmly established upon economic principles. Covering a broad range of topics from the growth of industries and enterprises to financial reforms and the difficulties of doing business in China, this collection provides a comprehensive view of problems the Chinese government faced while providing possible solutions. Despite being
