Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Note generali Description based upon print version of record. Nota di bibliografia Includes bibliographical references and index. Nota di contenuto Democratic states, their militaries, and security privatization: theoretical considerations -- Brothers in arms? : PSCS deployed alongside the national military -- Trading places : private firms hired in place of national militaries -- Historical insights: mercenary and auxiliary forces integrated into national militaries -- Concluding lessons and recommendations. Sommario/riassunto At peak utilization, private security contractors (PSCs) constituted a larger occupying force in Iraq and Afghanistan than did U.S. troops. Yet, no book has so far assessed the impact of private security companies on military effectiveness. Filling that gap, Molly Dunigan reveals how the increasing tendency to outsource missions to PSCs has significant ramifications for both tactical and long-term strategic

long-term. She highlights some of t

military effectiveness-and for the likelihood that the democracies that deploy PSCs will be victorious in warfare, both over the short- and
