Sommario/riassunto	This excellent series presents comparative study, analysis and evaluation of 28 European legal systems in the field of transfer of movables. Major topics are - the notion of ownership, - the derivative acquisition of ownership (e.g. by a sales contract), - the good faith acquisition of ownership and other property rights, - the multiple sale of the same movable, - the protection of possession, positive (acquisitive) prescription, and- processing and consolidation. The work is based on comprehensive country reports (which are to be
