Supporting and enhancing the academic project: Improving student throughput and success within an equity framework -- Chapter 5. Multilingualism for teaching and learning -- Chapter 6. Challenges relating to the establishment of comprehensive universities in the South African higher education sector -- Chapter 7. Cross-border collaboration in the Southern African Development Community countries -- Conclusion -- References.
Sommario/riassunto	Driving Change tells a story that exemplifies a basic law of physics, known to all in the application of a relatively small lever can shift weight, create movement and initiate change far in excess of its own size. It tells a story about a particular instance of development cooperation, relatively modest in scope and aim that has nonetheless achieved remarkable things and has been held up as an exemplar of its

kind. It does not tell a story of flawless execution and perfectly achieved outcomes: it is instead a narrative that gives some insight into the structural and organisational arrangements.
