| Sommario/riassunto | Behind the Green Card explodes the innumerable myths and bogeymen that obscure the reality of US immigration policy. Blinded by misguided 'national security interests,' the United States has codified a series of unworkable and irresponsible laws which make this country weaker, poorer and less secure than ever. Through the elimination of both a huge marketplace and enormous supply of labor, the US struggles to regain economic growth while other developed nations, through sensible immigration policies, forge ahead. |
