

1. Record Nr.	UNINA9910465104303321
Titolo	Secure multi-party computation [[electronic resource] /] edited by Manoj M. Prabhakaran and Amit Sahai
Pubbl/distr/stampa	Amsterdam ; ; Washington, DC, : IOS Press, 2013
ISBN	1-299-33339-7 1-61499-169-3
Descrizione fisica	1 online resource (296 p.)
Collana	Cryptology and information security series, , 1871-6431 ; ; v. 10
Altri autori (Persone)	PrabhakaranManoj M SahaiAmit
Disciplina	005.8/2
Soggetti	Computer security - Management Cryptography Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Title Page; Foreword; Preface; Contents; General Cryptographic Protocols: The Very Basics; A Short Tutorial of Zero-Knowledge; Security and Composition of Cryptographic Protocols: A Tutorial; The BGW Protocol for Perfectly-Secure Multiparty Computation; Information-Theoretic Secure Multiparty Computation; The IPS Compiler; Randomization Techniques for Secure Computation; Complexity of Multi-Party Computation Functionalities; Author Index
