Sommario/riassunto	Part travelogue, part natural history, and part documentary, A Walk across Texas is the record of three friends' journey from the Panhandle to Granbury-a 450-mile walk across West Texas. Jon McConal and his two friends, Eddie Lane and Norm Snyder, hiked for twenty-eight days through the less traveled byways of the Texas outlands, and in the process they encountered a world that is now as foreign to most Americans as the Taj Mahal.Researching places they wanted to see in advance, the trio selected a route that crossed as many creeks and rivers as possible and offered amenable campsites.
