Nota di contenuto	Power -- Form -- Subjectivity -- Mediated politics, promotional culture and the idea of 'propaganda' -- 'Ideology': a note on conceptual salvage -- Public knowledge and popular culture: spaces and tensions -- Documentary expression and the physicality of the referent: writing, painting and photography -- Documenting the political: some issues -- 'Critical social optics' and the transformations of audio-visual culture.
Sommario/riassunto	Over the past thirty years or so, John Corner has had a persistent regard for the value of conceptual terms in media research ... Theorising Media is consistent with this abiding concern and ... in many ways this new book marks its culmination. Theorising media explores how issues of power, form and subjectivity

lie at the core of all serious thinking about the media, including appreciations of their creativity as well as anxieties about the risks they pose. Drawing wildly on an interdisciplinary literature, this book takes its examples from film, television, radio, photography, painting, web practice, music and writing.
