Side-Notes: Before We Go Further; 10. Extrasensory Realities in Autism (With Possible Explanations); AFTERWORD; REFERENCES; SUBJECT INDEX; AUTHOR INDEX |
| Sommario/riassunto | Bogdashina explores theories of sensory perception and communication in autism. Drawing on linguistics, philosophy, neuroscience, psychology, anthropology and quantum mechanics, she looks at how the nature of the senses inform an individual's view of the world, and how language both reflects and constructs that view. |
