Sommario/riassunto	Comprising well over a thousand pages of densely written Aramaic, the compilation of texts known as the Zohar represents the collective wisdom of various strands of Jewish mysticism, or kabbalah, up to the thirteenth century. This massive work continues to provide the foundation of much Jewish mystical thought and practice to the present day. In this book, Pinchas Giller examines certain sections of the Zohar and the ways in which the central doctrines of classical kabbalah took shape around them.

2. Record Nr.	UNINA9910819855703321
Autore	Serani Deborah <1961->

Sommario/riassunto	Depression is often misdiagnosed or missed entirely in the elderly; people often think it's a "normal" response to the aging process. But this is not the case, and Serani offers a compassionate and practical guide to understanding, identifying, and treating depression for anyone suffering or who knows someone suffering with this common disorder.
