Sommario/riassunto	There are increasing calls for social science researchers to work more closely with research users. References to engaging users in and with research are now common in research funding requirements, national research strategies and large-scale research programmes. User engagement has therefore become part of the rhetoric of educational and social science research. But what is user engagement, how can it be achieved and what challenges and opportunities does it present for researchers and research users?The authors of this new book present an authoritative overview of recent theoretic
