Sommario/riassunto	This is the story of the de-industrialization of America, written by a Business professor with a background in steel company management who grew up in the city of Pittsburgh and loved its manufacturing environment. The book is based on the facts and aims to avoid any partisan political viewpoint - which is not as difficult as it may seem,

since both U.S. political parties support free trade economics. The story does not single out the union, the workers, management, politicians, or American voters and consumers, since there is plenty of blame to share. Even the economic policy of the country...
