	1-139-01584-X 1-200-25766-6
Descrizione fisica	1 online resource (ix, 214 pages) : digital, PDF file(s)
Disciplina	339.2
Soggetti	Income distribution
	Wealth
	Econophysics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Income and wealth distribution data for different countries Major socio-economic modelling Market exchanges and scattering process Analytic structure of the kinetic exchange market models Microeconomic foundation of the kinetic exchange models Dynamics : generation of income, inequality and development Outlook.
Sommario/riassunto	The distribution of wealth and income is never uniform, and philosophers and economists have tried for years to understand the

1.

these distributions, and is ideal for physicists and economists. It is written in simple, lucid language, with plenty of illustrations and indepth analyses, making it suitable for researchers new to this field as well as specialized readers. It explores the origin of economic inequality and examines the scientific steps that can be taken to reduce this inequality in the future.
