Sommario/riassunto	This volume provides an up to date and accessible examination of China's global search for resources, focusing primarily on oil. This focus provides a powerful rationale to explain China's actions overseas, as it impacts on economic, energy and foreign policies. A strong feature of the book is a comprehensive examination of geopolitical issues. Three country case studies (Angola, Brazil and Cambodia) are complemented by two chapters on opportunities and risks to China,

and an examination as to how strategies are developed into tangible actions. This book also examines a number of over
