Sommario/riassunto

The Routledge Handbook of Scripts and Alphabets is a unique reference to the main scripts and alphabets of the world. The Handbook presents over 60 alphabets covering an enormous scope of languages; from Amharic and Chinese to Thai and Cree. Full script tables are given for every language and each entry is accompanied by a detailed overview of its historical and linguistic context. New to this second edition: enhanced introduction discussing the basic principles and strategies utilized by world writing systems expanded to
