

1. Record Nr.	UNINA9910465451903321
Autore	Agarwala R. P (Rajendra P.)
Titolo	Radiation damage in some refractory metals // R.P. Agarwala
Pubbl/distr/stampa	Uetikon-Zuerich, Switzerland ; ; Enfield, New Hampshire : , : Trans Tech Publications, , [2005] ©2005
ISBN	3-03813-041-9
Descrizione fisica	1 online resource (66 p.)
Collana	Materials science foundations, , 1422-3597 ; ; volume 25
Disciplina	620.1/628
Soggetti	Materials - Effect of radiation on Metals - Effect of radiation on Heat resistant alloys Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"P.R. [i.e.] R.P. Agarwala."--Cover.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Radiation Damage in Some Refractory Metals; Table of Contents; Preface; Acknowledgement; Bio-Data of Editor; Table of Contents; Radiation Damage in Some Refractory Metals; a. Neutron Irradiated Recovery in V-2% Zr Alloy; B. Oxygen Interaction in Irradiated Dilute Vanadiumalloys; a. Helium Ion Damage in Vanadium-2% Zirconium Alloys; b. Recovery of Helium Ion Irradiated Molybdenum; Surface Ion Damage of Refractory Coatings; i) Carbon Coatings; ii) Titanium Carbide Coatings; iii) Effect of Deuterium Ion Bombardment on Boron Coatings. iv) Deuterium Ion Bombardment Behaviour of Aluminacoatings v) Aluminium Oxy-Nitride Coatings Recovery of Fast Neutron Irradiation of A-203 Steel; Study of Swelling of Vanadium on High Neutron Irradiation; Authors Index
Sommario/riassunto	In Chapter-1 of this timely book, radiation damage in vanadium, niobium, molybdenum and tungsten is discussed at the atomic level; treating - for instance - third-stage recovery in terms of self-interstitials being mobile traps for - predominantly - vacancies. Higher recovery stages are treated by using various techniques, such as: electrical resistivity, electron microscopy, positron annihilation

spectroscopy and computer simulation - thus revealing vacancy-cluster break-up in stage-V and interstitial cluster annealing in stage-VI.
Overall, these and other results are presented in 6 chapters:
