Sommario/riassunto	This volume provides a first systematic, comprehensive account of English in Southeast Asia (SEA) based on current research by leading scholars in the field. The volume first provides a systematic account of the linguistic features across all sub-varieties found within each country. It also has a section dedicated to the historical context and language planning policies to provide a background to understanding the development of the linguistic features covered in Part I and, finally, the vibrancy of the sociolinguistic and pragmatic realities that govern actual language in use in a wide variety
