

1. Record Nr.	UNINA9910465489203321
Autore	Lee Chung Min
Titolo	Fault lines in a rising Asia // Chung Min Lee
Pubbl/distr/stampa	Washington, District of Columbia : , : Carnegie Endowment for International Peace, , 2016 ©2016
ISBN	0-87003-313-1
Descrizione fisica	1 online resource (457 p.)
Disciplina	355/.03305
Soggetti	National security - Asia Electronic books. Asia Foreign relations 21st century Asia Military policy Asia Politics and government 21st century
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record. Description based on print version record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The other side of Asia's rise -- The predicaments of strong states and Asia's political deficits -- Titans and the quest for supremacy -- Projecting power and a virtual arms race -- Asia and the making of the second nuclear age -- The bomb next door : a nuclearized North Korea.
Sommario/riassunto	Asia has already risen by most hard-power measures. But without an understanding of the downsides of Asia's rise, the conventional narrative is incomplete, misleading, and inaccurate. Chung Min Lee explores the fundamental dichotomy that defines contemporary Asia. While the region has been an unparalleled economic success, it is also home to some of the world's most dangerous, diverse, and divisive challenges. Contrary to prevailing wisdom, he says, Asia's rise doesn't mean the demise of the West. Asia's rise over the past four decades is one of the most significant geopolitical and geoeconomic developments in world affairs as evinced by China's, and more recently, India's, accelerated economic growth. Yet the conventional narrative of Asia's rise is incomplete, if not misleading, given the fundamental

dichotomy that defines contemporary Asia: a region with unparalleled economic success but also home to the world's most dangerous, diverse, and divisive security, military, and political challenges. How the strategically consequential Asian states manage to ameliorate or even overcome traditional geopolitical tinderboxes across the Taiwan Strait, the Korean Peninsula, and the Indian subcontinent and new zones of strategic competition such as the South China Sea is to going to have a profound impact on the shaping of regional order well into the 21st century.
