| Sommario/riassunto | Nearly a century ago, famed educator John Dewey said that ""if we teach today's students as we taught yesterday's, we rob them of tomorrow."" That wisdom resonates more strongly than ever today, and that maxim underlies this insightful look at the present and future of education in the digital age.As Darrell West makes clear, today's educational institutions must reinvent themselves to engage students successfully and provide them with the skills needed to compete in an increasingly global, technological, and online world. Otherwise the American education system will continue to fall woefully |
