Sommario/riassunto	While it's inspiring to ponder the libraries of the 22nd century, it's a lot more practical to think ahead to the next five years. That's just what

Varnum and his hand-picked team of contributors have done, showing library technology staff and administrators where to invest time and money to receive the greatest benefits. Their ideas will stimulate strategic thinking and help library staff make informed decisions about meeting user expectations and delivering services. Sure conversation starters and informative for any library, chapters include "Impetus to Innovate: Convergence and Library Tren
