Sommario/riassunto	The two 'moral worlds' of Jerusalem and exile provide the key to Ezekiel's ethics. The prophet both offers an explanation of the disaster in terms familiar to his hearers' past experience, and provides ethical strategies for coping with the far more limited possibilities of life in Babylonia. - ;Whereas much recent work on the ethics of the Hebrew Bible addresses the theological task of using the Bible as a moral resource for today, this book aims to set Ezekiel's ethics firmly in the social and historical context of the Babylonian Exile. The two 'moral worlds' of Jerusalem and Babylonia provide the key. Ezekiel explains the

disaster in terms familiar to his audience's past experience as members of Judah's political elite. He also provides ethical strategies for coping with the more limited possibilities of life in Babylonia, which include the ritualization of ethics, an increasing emphasis on the domestic and personal sphere of action, and a shift towards human passivity in the face of restoration. Thus the prophet's moral concerns and priorities are substantially shaped by the social experience of deportation and resettlement. They also represent a creative response to the crisis, providing significant impetus for social cohesion and the maintenance of a distinctively Jewish community.

Sommario/riassunto	The enjoyment of wargaming is greatly enhanced if the battles (games)

are played within well thought-out scenarios. Instead of simply lining up evenly-matched armies and fighting to the death, the players can have realistic objectives (such as the capture of a vital piece of terrain or delaying a superior enemy to cover a retreat) and be confronted with more challenging tactical decisions. Devising such scenarios can take a lot of effort, and more critically, time, which is always in short supply. This book is designed to take the time and effort out of organising fascinating and challenging w

Sommario/riassunto

Este libro nace con la vocación de establecer un puente común entre los métodos de investigación de la escuela literaria sajona y los de la filológica o, por lo menos, de defraudar las expectativas de una y de otra por igual. El motivo de análisis es singular: la presencia de la divisa del Rey Sol dispuesta alrededor de la producción cultural de la corte de Felipe IV.
