legalizing secession strengthen the plurinational federation?; 11 Nationalism and cosmopolitanism in the global age; 12 Democracy, federalism and plurinational states; Index

Sommario/riassunto

The current context of developed societies is characterised by a number of phenomena, the most significant of which are processes of economic globalisation, information technologies, increasing multiculturalism and the emergence of cases of national pluralism which require full political accommodation both within democracies and in the international sphere. The book examines the current state of affairs concerning the political recognition and constitutional accommodation of national pluralism in liberal democracies in the global era of the 21st century.
