The British Conservative Party and economic policy: from Mrs. Thatcher to David Cameron / Nigel F. B. Allington and Gillian Peele; Free-market conservatives faced with the economic crisis: the paradox of a revival in the United States / Sebastien Care -- Conclusion.
Sommario/riassunto	This collective work compares US and UK conservative thought in the areas of the meaning of rights, foreign policy mission, the role of religious activism within their respective party politics, and the impact of the current economic crisis on conservative economic orthodoxy. Intended both for political scientists and the general public, it is hoped this work will add to the understanding of what constitutes conservatism, and help reveal the common strands of thought which

unite them.
