Sommario/riassunto	In this clear and concise introduction to second-century christologies, James Papandrea sets out five of the principal images of Christ that dominated the postapostolic age. Between varieties of adoptionism and brands of Gnosticism, Papandrea helps us see how Logos Christology was forged as the beginning of the church's orthodox confession.

Sommario/riassunto	The book takes a new look at self-harm, focusing particularly on the under-explored area of `hidden' self-harming behaviour. These behaviours may not be immediately identifiable as self-harm by counsellors, therapists or their clients, but Turp shows how recognition and understanding of hidden self-harm can improve practice with

those affected.
