Disciplina	300.72
Soggetti	Social sciences - Research - Methodology Humanities - Research - Methodology Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Meaning and importance of research -- Topic, problem, and thesis -- Selecting suitable research design -- Developing scientific research proposal -- Instruments for data collection -- Writing research report -- Rules of the academic game.
Sommario/riassunto	This book provides introductory materials on research methods and report writing that aim at guiding students and researchers towards effective research and reporting of their findings. Unlike the many volumes on research that are mostly theoretical, this book originated in the classroom and grew out of the students' own needs to design and conduct satisfactory research in order to meet academic requirements. It is also designed to help experienced researchers in their research ventures. In fulfilling this purpose, the author uses simple, straightforward language. He also provides appropriate examples and illustrations to enable the reader to grasp the basic concepts of research. The book will prove a useful guide for students and researchers in social sciences and humanities who wish to transform research theory into real and feasible research projects.
