

1. Record Nr.	UNINA9910465619503321
Autore	Chambers R. L (Ray L.)
Titolo	An introduction to model-based survey sampling with applications [[electronic resource] /] / Raymond L. Chambers, Robert G. Clark
Pubbl/distr/stampa	Oxford ; ; New York, : Oxford University Press, 2012
ISBN	0-19-162789-5 9786613593962 1-280-49873-0
Descrizione fisica	1 online resource (280 p.)
Collana	Oxford statistical science series ; ; 37
Altri autori (Persone)	ClarkRobert G
Disciplina	519.5/2
Soggetti	Sampling (Statistics) - Methodology Sampling (Statistics) - Mathematical models Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Basics of model-based survey inference -- pt. 2. Robust model-based survey methods -- pt. 3. Applications of model-based survey inference.
Sommario/riassunto	This text brings together important ideas on the model-based approach to sample survey, which has been developed over the last 20 years.
