Sommario/riassunto	Due to technical advances in production and communication technology, outsourcing - contracting out production of intermediate materials and services - has affected the economic growth of the ASEAN region. This new book fills an important gap in the literature looking at the impact outsourcing has on labour markets, its subtle effects on regional economies and policy implications. Shandre Thangavelu and Aekapol Chongvilaivan investigate various impacts of outsourcing on labour markets, such as its effects on labour productivity, skill upgrading, human capital, and training, in ASEAN
