advocacy, and support / Clare Sullivan, Beverley Longhurst, Amelia Cook and Elizabeth Bowman -- Cancer survivorship / Esther Bird, Amy Guppy, and Carlo Palmieri.

#### Sommario/riassunto

ABC of Cancer Care is a practical primary care guide to help health professionals better inform their patients, manage and recognize the common complications of cancers and their treatment, and understand the rationale and implications of decisions made in secondary and tertiary care. It provides coverage of the diagnosis, management, treatment and on-going surveillance of common cancers within the multidisciplinary context of primary care. Individual chapters assess the different treatment options, including surgery, radiotherapy and chemotherapy, and examine their possible side effects.
