1. Record Nr.          UNINA9910465716203321

   Autore             Boden Margaret A.

   Titolo             AI : its nature and future / / Margaret A. Boden

   Pubbl/distr/stampa  Oxford, England : , : Oxford University Press, , 2016
                      ©2016

   ISBN               0-19-108348-8

   Descrizione fisica  1 online resource (209 p.)

   Disciplina         006.3

   Soggetti           Artificial intelligence
                      Artificial intelligence - Social aspects
                      Electronic books.

   Lingua di pubblicazione  Inglese

   Formato            Materiale a stampa

   Livello bibliografico  Monografia

   Note generali      Description based upon print version of record.

   Nota di bibliografia  Includes bibliographical references and index.

   Nota di contenuto  COVER; ITS NATURE AND FUTURE; COPYRIGHT; DEDICATION;
                      ACKNOWLEDGMENTS ; CONTENTS ; LIST OF FIGURES; Chapter 1:  What
                      is Artificial Intelligence? ; Virtual Machines ; The Major Types of AI ; AI
                      Foreseen ; How AI Began ; Cybernetics ; How AI Divided ; Chapter 2:
                      General Intelligence as the Holy Grail ; Supercomputers aren't Enough ;
                      Heuristic Search ; Planning ; Mathematical Simplification ; Knowledge
                      Representation ; Rule-Based Programs ; Frames, Word-Vectors, Scripts,
                      Semantic Nets ; Logic and the Semantic Web ; Computer Vision ; The
                      Frame Problem ; Agents and Distributed Cognition
                      Machine Learning Generalist Systems ; The Dream Revitalized ; Missing
                      Dimensions ; Chapter 3:  Language, Creativity, Emotion ; Language ;
                      Creativity ; AI and Emotion ; Chapter 4:  Artificial Neural Networks ; The
                      Wider Implications of ANNs ; Parallel Distributed Processing ; Learning
                      in Neural Networks ; Backprop and Brains-And Deep Learning ; Network
                      Scandal ; Connections aren't Everything ; Hybrid Systems ; Chapter 5:
                      Robots and Artificial Life ; Situated Robots and Interesting Insects ;
                      Evolutionary AI ; Self-Organization ; Chapter 6:  But is it Intelligence,
                      Really? ; The Turing Test
                      The Many Problems of Consciousness Machine Consciousness ; AI and
                      Phenomenal Consciousness ; Virtual Machines and the Mind-Body
                      Problem ; Meaning and Understanding ; Is Neuroprotein Essential? ; Not

|---|---|
| Sommario/riassunto | Artificial Intelligence surrounds us; in our homes, schools and offices, in our cinemas, in art galleries and - not least - on the Internet. Margaret Boden considers the realistic and unrealistic expectations we have placed on AI, analyses its progress, and considers the value of its byproducts. |
