Sommario/riassunto

This book explores the links between European integration and globalisation, and examines the potential for social transformation in the context of the global economic crisis and the resulting EU reforms. Divided into three parts, this book offers both empirical and theoretical analyses of social integration, supranationality and global competition. Drawing on Critical Political Economy research, Neo-Gramscian, Open Marxist, Regulationist and Post-structuralist scholars subject a wide range of European flagship policies in matters of competition, trade and security to critical
