Sommario/riassunto	This is an easy to read question and answer book that was created to prepare the reader for the American Board of Psychiatry and Neurology (ABPN) certification and recertification exams. It was specifically designed to cover the topics listed in the ABPN content outline including basic neuroscience, behavioral neurology, psychiatry, and clinical neurology. It includes questions about recent practice

parameters published by the American Academy of Neurology. This book utilizes a multitude of question forming, including case-based and multiple choice questions.
