	Sommario/riassunto	Press, Platform, Pulpit examines how early black feminism goes public by sheding new light on some of the major figures of early black feminism as well as bringing forward some lesser-known individuals who helped shape various reform movements. With a perspective unlike many other studies of black feminism, Teresa Zackodnik considers these activists as central, rather than marginal, to the politics of their day, and argues that black feminism reached critical mass well

before the club movement's national federation at the turn into the twentieth century . Throughout, she s

Sommario/riassunto	This book constitutes the proceedings of the 24th International Conference on Algorithmic Learning Theory, ALT 2013, held in Singapore in October 2013, and co-located with the 16th International Conference on Discovery Science, DS 2013. The 23 papers presented in this volume were carefully reviewed and selected from 39 submissions. In addition the book contains 3 full papers of invited talks. The papers are organized in topical sections named: online learning, inductive inference and grammatical inference, teaching and learning from queries, bandit theory, statistical learning theory, Bayesian/stochastic learning, and unsupervised/semi-supervised learning.
