Sommario/riassunto	"Forensic Reports & Testimony: A Guide to Effective Communication for Psychologists and Psychiatrists provides a roadmap for the mental health professional who wants to provide consistently accurate, defensible, and useful reports and testimony to the legal system. Authors Randy K. Otto, Richart L. DeMier, and Marcus Boccaccini, recognized experts in the field, cover all aspects of the process, including preparing affidavits and reports, preparing for depositions, and testifying. Every written or spoken communication for the courts

must be clear and precise, and distinguish between facts, inferences, and opinions. This book uniquely: Shows the critical differences between forensic psychological reports and the clinical reports psychologists and psychiatrists are accustomed to writing Includes and explains important maxims of forensic report writing, including separating facts from inferences, focusing on offering expert opinions, explaining why you think what you think, and connecting the dots between facts and conclusions Provides numerous examples of experts' testimony, affidavits, reports-with commentary and critiquesExpert forensic work deserves to be presented in a clear, precise, and understandable way so that it is useful to attorneys, judges, and juries. Forensic Reports & Testimony provides the guidelines and models forensic psychologists and forensic psychiatrists need to make that happen"--

Sommario/riassunto

In *Adventure in Human Knowledges and Beliefs*, readers are adjudicators who "measure" the acceptability of knowledges and beliefs. Andrew Ralls Woodward leads readers through an adventure which includes the philosophy of science, religious studies, and theology.
