Sommario/riassunto

Internationalisation of Social Sciences in Central and Eastern Europe explores the way in which social sciences, in comparison with other sciences in Europe, have been divided by the political orders of West and East. As part of the field of science policies in Europe, this book contributes to the creation of a new understanding of the European academic landscape of social sciences with particular focus on CEE countries. In its investigation of the emergence of social sciences in Central and Eastern Europe following the collapse of the totalitarian systems, this book discusse
