Sommario/riassunto	"The ability to reflect on practice is a fundamental component of effective medical practice. In a sector increasingly focused on professionalism and patient-centred care, Developing Reflective Practice is a timely publication providing practical guidance on how to acquire the reflective skills necessary to become a successful clinician. This new title draws from a wide range of theoretical and practical multidisciplinary perspectives to assist students, practitioners and educators in embedding reflection in everyday activities. It also offers structures and ideas for more purposeful and meaningful formal reflections and professional development. Developing Reflective Practice: Focuses on the developing practitioner and their lifelong learning and the development of professional identity through reflection Provides practical how-to information for students, practitioners and educators, including realistic case examples and practice-based hints and tips Examines and explains the theoretical and conceptual approaches to reflective practice, including its models and frameworks"--Provided by publisher.
