

1. Record Nr.	UNINA9910466056503321
Autore	Blee Fabrice <1968->
Titolo	The third desert : the story of monastic interreligious dialogue // Fabrice Blee ; translated by William Skudlarek with Mary Grady
Pubbl/distr/stampa	Collegeville, Minnesota : , : Liturgical Press, , 2011 ©2011
ISBN	0-8146-3949-6
Descrizione fisica	1 online resource (176 p.)
Collana	Monastic Interreligious Dialogue Series
Disciplina	201/.5
Soggetti	Meditation - Catholic Church - History Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Title Page; Copyright; Contents; Foreword; Preface; Introduction; Chapter 1: No Mission without Dialogue; Chapter 2: Dialogue for a Changing World; Photos; Chapter 3: Autonomy and Assessment; Chapter 4: Developing a Spirituality of Dialogue; Notes; Bibliography

2. Record Nr.	UNINA9910822072803321
Autore	Modi Ritesh
Titolo	Azure resource manager templates quick start guide : create, deploy, and manage azure resources with ARM templates using best practices / / Ritesh Modi
Pubbl/distr/stampa	Birmingham ; ; Mumbai : , : Packt Publishing Ltd, , 2019
ISBN	1-78961-227-6
Edizione	[1st edition]
Descrizione fisica	1 online resource (225 pages)
Disciplina	005.1
Soggetti	Application software - Development Cloud computing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Compose and decompose ARM templates and use advanced concepts like looping, conditions, dependencies, PowerShell and Desired State Configuration. Key Features Design, implement, and unit test ARM templates Develop and deploy ARM templates following security best practices Book Description Azure Resource Manager (ARM) templates are declarations of Azure resources in the JSON format to provision and maintain them using infrastructure as code. This book gives practical solutions and examples for provisioning and managing various Azure services using ARM templates. The book starts with an understanding of infrastructure as code, a refresher on JSON, and then moves on to explain the fundamental concepts of ARM templates. Important concepts like iteration, conditional evaluation, security, usage of expressions, and functions will be covered in detail. You will use linked and nested templates to create modular ARM templates. You will see how to create multiple instances of the same resources, how to nest and link templates, and how to establish dependencies between them. You will also learn about implementing design patterns, secure template design, the unit testing of ARM templates, and adopting best practices. By the end of this book, you will understand the entire life cycle of ARM templates and their testing, and be able to author them

for complex deployments. What you will learn Understand the foundations of ARM templates including nested and linked templates Design, create, and unit test ARM templates using best practices Learn about conditional deployments, looping, Custom Script Extensions using PowerShell, Bash, and DSC Implement design patterns related to ARM templates Run post-deployment PowerShell and Desired State Configuration scripts Create solutions and deploy them on Azure using ARM templates Who this book is for This book is for developers, DevOps engineers, and architects who have experience in Azure.
