An exercise in parallel text analysis -- Perspective: Kawabata's Beauty and Sadness and its translations into English, German, and Dutch -- The dynamic interplay between words and pictures in picture storybooks: How visual and verbal information interact and affect the readers' viewpoint and understanding -- Maintaining multiple viewpoints with

gaze -- Mixed viewpoints in factual and fictive discourse in Catalan Sign Language narratives -- Concluding remarks: Why viewpoint matters -- Index -- Authors and artists discussed

Sommario/riassunto

This volume explores the cross-linguistic diversity, and possibly inconsistency, of the span of linguistic means that signal reported speech and thought. The integration of broad linguistic (viewpoint in conversation and narrative) and cognitive (theory of mind and understanding the inner life and thought of others) strategies for handling mixed points of view will be considered.
