Sommario/riassunto

Roads to Paradise: Eschatology and Concepts of the Hereafter in Islam offers a multi-disciplinary study of Muslim thinking about paradise, death, apocalypse, and the hereafter. It focuses on eschatological concepts in the Quran and its exegesis, Sunni and Shi'i traditions, Islamic theology, philosophy, mysticism, and other scholarly disciplines reflecting Islamic pluralism and cosmopolitanism. Gathering material from all parts of the Muslim world, ranging from Islamic Spain to Indonesia, and the entirety of Islamic history, this publication in two volumes also integrates research from comparative religion, art history, sociology, anthropology and literary studies. Unparalleled and unprecedented in its scope and comprehensiveness, Roads to Paradise promises to become the definitive reference work on Islamic eschatology for the years to come.
