

1. Record Nr.	UNINA9910466456703321
Titolo	The Bethesda handbook of clinical oncology / / editors, Jame Abraham, James L. Gulley
Pubbl/distr/stampa	Philadelphia, Pennsylvania : , : Wolters Kluwer, , 2019
ISBN	1-4963-6716-2
Edizione	[Fifth edition.]
Descrizione fisica	1 online resource (xiv, 807 pages) : illustrations
Disciplina	616.994025
Soggetti	Cancer - Complications Tumors - Treatment Tumors - therapy Neoplasms - therapy Electronic books. Handbook
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	1. Head and neck cancer -- 2. Non-small cell lung cancer -- 3. Small cell lung cancer -- 4. Esophageal cancer -- 5. Gastric cancers -- 6. Biliary tract cancers -- 7. Primary cancers of the liver -- 8. Gastrointestinal stromal tumors (GIST) -- 9. Colorectal cancer -- 10. Pancreatic cancer -- 11. Anal cancer -- 12. Breast cancer -- 13. Renal cell cancer -- 14. Prostate cancer -- 15. Bladder cancer -- 16. Testicular carcinoma -- 17. Ovarian cancer -- 18. Endometrial cancer -- 19. Cervical cancer -- 20. Vulvar cancer -- 21. Sarcomas and malignancies of the bone -- 22. Skin cancers and melanoma -- 23. Acute leukemia -- 24. Chronic lymphoid leukemias -- 25. Chronic myeloid leukemia -- 26. Chronic myeloproliferative neoplasms -- 27. Multiple myeloma -- 28. Non-Hodgkin lymphoma -- 29. Hodgkin lymphoma -- 30. Hematopoietic cell transplantation -- 31. Carcinoma of unknown primary -- 32. Central nervous system tumors -- 33. Endocrine tumors -- 34. Hematopoietic growth factors -- 35. Infectious complications in oncology -- 36. Oncologic emergencies and paraneoplastic syndromes -- 37. Psychopharmacologic management in oncology -- 38. Management of emesis --39. Medical nutrition

therapy -- 40. Pain and palliative care -- 41. Central venous access device -- 42. Procedures in medical oncology -- 43. Basic principles of radiation oncology -- 44. Clinical genetics -- 45. Basic principles of immuno-oncology -- 46. Anticancer agents

Sommario/riassunto

"The Bethesda Handbook of Clinical Oncology is a clear, concise, and comprehensive reference book for the busy clinician to use in his or her daily patient encounters. The book has been compiled by clinicians who are working at the National Cancer Institute, National Institutes of Health, Cleveland Clinic, M.D. Anderson, Mayo Clinic as well as scholars from other academic institutions. To limit the size of the book, less space is dedicated to etiology, pathophysiology, and epidemiology and greater emphasis is placed on practical clinical information. For easy accessibility to the pertinent information, long descriptions are avoided, and more tables, pictures, algorithms, and phrases are included."--Provided by publisher.
