Autore	Knipe Jim <1944->
Titolo	EMDR toolbox : theory and treatment of complex PTSD and dissociation // Jim Knipe
Pubbl/distr/stampa	New York, New York : , : Springer Publishing Company, , 2019
ISBN	0-8261-7256-3
Edizione	[Second edition.]
Descrizione fisica	1 online resource (327 pages)
Disciplina	616.85210651
Soggetti	Eye movement desensitization and reprocessing Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The need for a theoretical framework and additional "tools" for using EMDR with complex PTSD -- Traumatic memory and EMDR, when dual attention is possible -- An adaptive information processing model for treating psychological defenses -- EMDR with avoidance -- Targeting idealization defenses -- Treating addictive disorders with adaptive information processing methods -- Treating dissociation within an adaptive information processing model -- The basic framework for the preparation phase -- Preparation : the language of ovals -- Preparation : drawings -- Loving eyes : "looking" from one part to another -- Treating defensive shame -- The CIPOS procedure -- The persistence of dissociative personality structure, and the internal healing dialogue (IHD) procedure -- Veronica -- Doug -- Rhonda -- Some closing thoughts.
Sommario/riassunto	Praise for the first Edition: "[R]eading this book has given me a whole host of new ideas about working with complex and dissociative clients... Clear and engaging, peppered with relevant case histories, this book would make an important addition to anyone's EMDR-related book collection." —Dr. Robin Logie, EMDR UK & Ireland "A brilliant and accessible book...[T]he information in this book will revolutionize EMDR treatment with complex trauma/dissociated clients." —Carol Forgash, LCSW, BCD "This book is a jewel for EMDR clinicians. It is also recommended for any professional interested in the treatment of complex disorders... Jim Knipe is a highly gifted professional and this is

the result of many years of experience and practice.” —Dolores Mosquera, MS, Amazon Review

This innovative resource for therapists trained in Standard EMDR delivers a powerful set of EMDR-based “Tools” - useful strategies for helping difficult-to-treat clients with complex emotional problems. The second edition reflects the author’s ongoing efforts to design treatments that can significantly extend the therapeutic power of methods based on an Adaptive Information Processing model. It describes new discoveries that promote effective ways of structuring therapy sessions and refines original treatment procedures that can facilitate and safely accelerate therapeutic progress. The book provides an overview of the principal issues in treating these complex emotional problems and describes highly effective methodologies with a wide variety of clinical presentations that originate in or include disturbing traumatic memories. It also describes how to integrate specific EMDR-related interventions with other psychotherapeutic treatments. Each intervention is examined in detail with accompanying transcripts, client drawings, and case studies illustrating the nuances and variations in intervention application. Bolstered by supporting theory and current research, the book also discusses how the concepts and vocabulary of other models of dissociation translate directly into EMDR’s Adaptive Information Processing (AIP) language.

**New to the Second Edition:** Describes new strategies and refinements of standard methods for treatment of clients with complex emotional problems Includes two completely new chapters, “Internal Healing Dialogue” and “Case Example: treating the problem of ‘attachment to the perpetrator’” Provides new case examples on childhood sexual abuse Offers new sections on treating chronic defensive shame, the importance of “fast” vs “slow” thinking processes, and new applications of “Loving Eyes” procedures Includes ebook with the purchase of print version

**Key Features:** Written by an EMDRIA-designated “Master Clinician” Delivers successful treatments alternatives for difficult-to-treat clients Provides a theoretical framework to guide assessment and treatment of clients with complex PTSD Includes specific AIP tools, verbatim therapy scripts, client drawings, and case studies Discusses each intervention in detail, illustrating the nuances and variation in different applications

Nota di contenuto	Intro -- CONTENT -- INTRODUCTION -- Landscape Fragmentation Around Us - Integrating the Issue into Educational Processes at Primary and Secondary Schools -- Ivo Dostál, Petr Andl, Marek Havlíek, František Petrovi -- Mapping of urban geoheritage in city of Liberec using participatory research -- Emil Drápela -- Regional and Geographic Features of pro-poor growth in Africa -- Jaromír Harmáek, Barbora Frliková -- Comparison of Static Perspective Views and 2D Maps - the Role of Age, Spatial Abilities, and Task Nature -- Lukáš Herman, Martina Faltejsková, Zdenk Stacho -- Comparison of map reading skills and geographical knowledge of future officers and

geography teachers -- Martin Hubáek, Jaromír apek, Eva Mertová -- Anthropogenic relief transformations - their knowledge and evaluation with regard to the uniqueness and cultural identity of regions -- Karel Kirchner, Lucie Kubalíková, František Kuda, Marek Havlíek -- Pre-industrial landscape of the Jeseníky region as a natural and cultural heritage -- Jaromír Kolejka, Eva Nováková -- Geographical approach to the analysis of elections on the example of parliamentary elections in Slovakia in 2016 -- Alfred Krogmann, Magdaléna Nemíková, Ján Veselovský, Andrej Svorad -- Geological paths - their use for the regional geography teaching -- Lucie Kubalíková, Emil Drápela, Aleš Bajer, Dana Zapletalová, Marie Balková, Kamil Zágoršek, Karel Kirchner, František Kuda, Pavel Roštínský -- Monuments of cultural heritage from the perspective residents - a case study of Mikulice (Czechia) and Vlkolínec (Slovakia) -- Libor Lnnika, Lenka Dvoáková -- Regional biogeographical model of vegetation zones in doctoral programme Regional Biography in Olomouc (Case study for Norway spruce) -- Ivo Machar, Marián Halás -- Agriculture Development of the Nitra Region in the Context of Slovakia after year 2004. Jana Némethová, Melánia Feszterová -- Regional Geography of Aid: Subnational Approach to Foreign Aid Allocations in Research and Education -- Zdenk Opršal -- Regional Geography Education in Poland -- Agnieszka witek, Wiktor Osuch -- Didactic Aspect of Teaching Environmental Geography (The Draft of Environmental Geography Textbook for Primary Schools) -- Michaela Stríšková, Daša Oremusová, Magdaléna Nemíková -- Environmental visualization of selected Czech regions: analysis of geography textbooks -- Petr Trahorsch, Roman Kroufek -- Retail and shopping behavior in small towns in Slovakia (example study of Zlaté Moravce town) -- Miroslava Trembošová, Alena Dubcová, Natália Horná -- Inquiry-based learning and its using in geography at the second level of primary schools -- Katarína Viliinová, Veronika Kabátová -- Secret potential of the ecosystem services in lower secondary education in Slovakia -- Gréta Vrbianová, Lucia Szabová, Matej Moko, Dominika Kaisová, Imrich Jakab.

#### Sommario/riassunto

The proceedings are the output of the 27th edition of the Central European Conference with subtitle (Teaching) of regional geography. The proceedings contain 19 contributions. Contributions indicate the current state of professional interest of conference participants. The contributions present current trends in geographical research by experts from the Czech Republic, Slovakia and Poland.
