Sommario/riassunto	The acceleration of mobility among the world's peoples, the growth of populations resettling in places other than their homelands, and world events that have propelled these developments have brought minorities unprecedented attention. Their significance as subjects for study has grown correspondingly and the study of their music has become an

important gateway into understanding the culture of minorities. The Study Group for Music and Minorities, part of the International Council for Traditional Music, has seen a steady increase in membership since its inception in 1998 - evidence of the grow
